

Dear Recruiting Department,

My name is Ivana Samardžija. I am submitting my resume for consideration towards the "Senior Software Developer" position advertised on your recruiting site <https://recruiting.novomatic.com>.

Your current employee Dragan Nakić has spoken nicely of your company so I decided to apply.

I consider myself being passionate and responsible person always giving my best in everything I do and willing to learn new things in life.

After reading the job description I think that I can do this job successfully and learn a lot during the process. From what I heard of Novomatic LS working in pleasant working environment with modern technologies seems like good opportunity. I welcome the opportunity to meet you for an interview.

Sincerely,

Ivana Samardžija
